

GREEN BADGER Pricing Guide

Automate your documentation
with Green Badger.

Get back hundreds of man-hours
per project, for less than the cost
of a monthly jobsite luncheon.

“Green Badger helps in bringing all the contractor credit status on one platform. It’s my one go-to dashboard to check on all projects. Also, a great way to learn and share project documentation (like EPD, HPD, VOC etc) between multiple projects.”

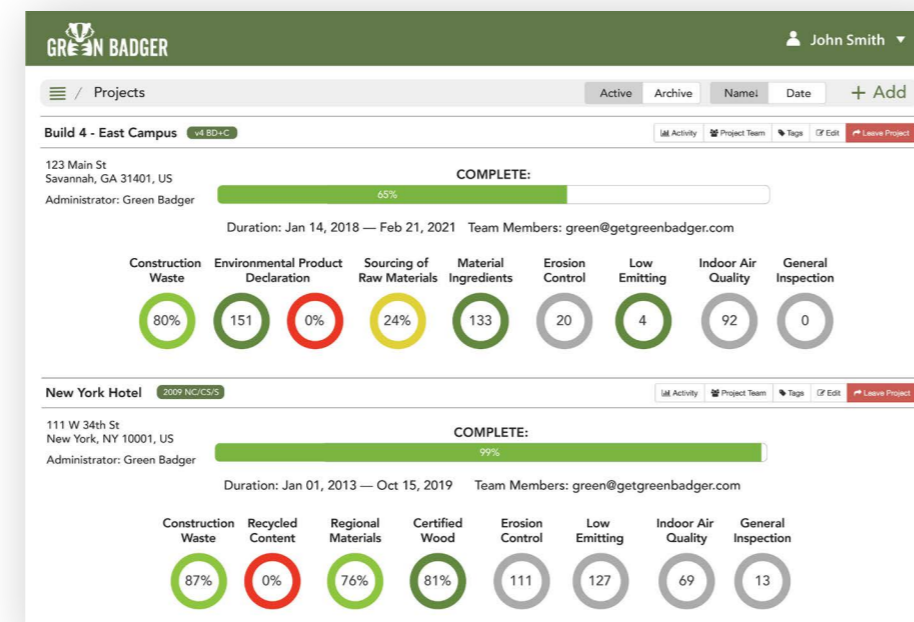

– Vandita M., Sustainability Manager

GREEN BADGER Pricing Guide

Green Badger slashes the time and effort spent on LEED documentation.

Total materials found: 60

Material	Manufacturer	LEED Credit	CSI Division
700 Series Fibreglas Insulation Faced	Owens Corning	EPD SRM MIR	07 20 00
Knauf Insulation EcoBatt® Insulation	Knauf Insulation	EPD SRM MIR	07 20 00
OEM Insulation Board	Johns Manville	EPD SRM	07 20 00
K-13 Acoustical/Thermal Insulation System	International Cellulose	EPD MIR	07 21 00
Mineral Wool Loose Fill	Naima	EPD	07 00 00
Open-Cell Low Density Spray Polyurethane	SPFA	EPD	07 00 00
Stone wool insulation	Rockwool	EPD	07 20 00
Formaldehyde-Free Fiber Glass Insulation	Johns Manville	SRM MIR	07 20 00
Industrial Coatings	Superior Products Int.	MIR	07 20 00
Polyiso Insulation board	Hunter Panel	EPD	07 20 00
Sustainable Insulation Unfaced/Kraft Faced Batts	CertainTeed	EPD MIR	07 20 00
STYROFOAM INSULATION	Dow Building Solutions	EPD MIR	07 20 00

Indoor Air Quality Report (01/27/2020)

LEED v4 Project Example with Long Name - Phase II
 Rating System Type: LEED v4 BD+C
 LEED Project Sub-type: New Construction
 Corporate Project Identifier: 00-000-000000
 LEED Project Number: 00-000-000000
 Construction Timeline: 50% complete

Indoor Air Quality Measures

HVAC Protection:

Comments:

- 2020-30-04 11:25:08: Open ductwork ends sealed in east wing
- 2020-30-04 11:25:08: VAV boxes sealed in the central hall
- 2020-30-04 11:25:08: All duct runs protected/sealed in west wing

Verify thousands of green building products instantly

Instantly verify and document thousands of LEED v4 compliant products from our database, while logging them automatically to your project.

Seamlessly collaborate with your project teams

Whether in the office or in the field, cloud collaboration lets teams work together seamlessly while easing the burden of personnel changes.

Eliminate cumbersome Excel tracking spreadsheets

Manage all your documentation in one place while eliminating bulky spreadsheets, binders of product submittals, and piles of receipts.

Validate vital project information from the field

Our mobile app offers real-time creation of IAQ and ESC reports – send customized PDFs from the job site validating compliance.

GREEN BADGER Pricing Guide

1 project

=

400 hours

1 LEED project takes up to 400 man hours annually.

With Green Badger, time spent is cut by 65%
saving general contractors \$25,000 per project.

10x ROI

Spend your time getting your project built on time
and on budget – not on chasing LEED paperwork.

“Big fan here!
Reasonably priced.
Highly recommend
it from a both a
LEED and lean
project format.”

I wouldn't want to
do another LEED
project without
Green Badger.”

– Craig D.,
Sr. Project Manager

Educational Resources

The LEED Product Guide

A framework of the product categories with the broadest number of manufacturers and product lines with EPDs, HPDs, Cradle to Cradle certifications, Declare labels to earn LEED materials credits for EPD Option 1 & MIR Option 1.

LEED Credit Guidance & Strategies

We send out monthly updates with strategies for achieving certain LEED construction credits based on our work with 500+ project teams across the country, breaking down requirements, strategies and advice for each one.

The Essential Playbook to Managing LEED Construction

The Essential Playbook is an on-demand webinar that offers advice about which of the LEED construction credits are Essential, Practical and Irrelevant to switch over to LEED v4.1 – and how to achieve each one.
