

Green Badger Pricing Guide

Automate your documentation
with Green Badger.

Get back hundreds of man-hours per
project, for less than the cost of a
monthly jobsite luncheon.

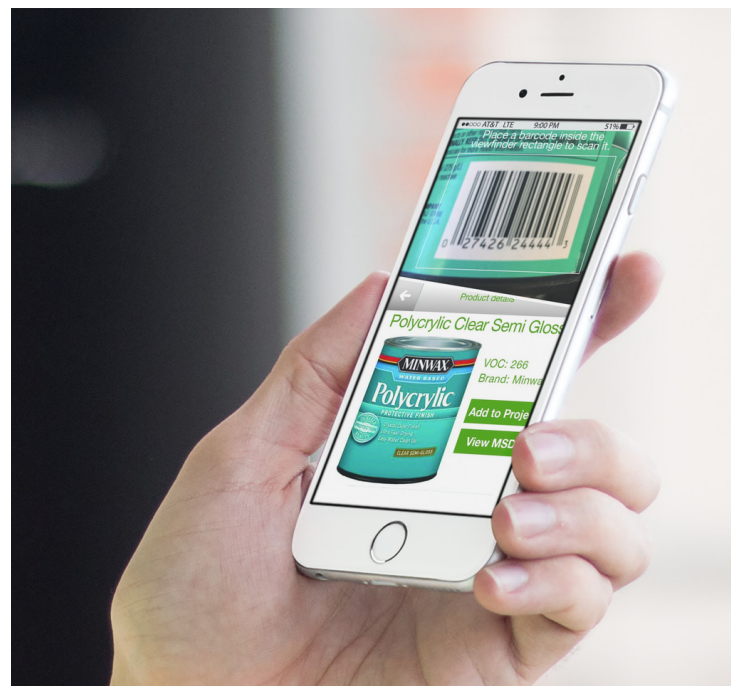

“Green Badger helps in bringing all the contractor credit status on one platform. It’s my one go-to dashboard to check on all projects. Also, a great way to learn and share project documentation (like EPD, HPD, VOC etc) between multiple projects.”

– Sustainability Manager

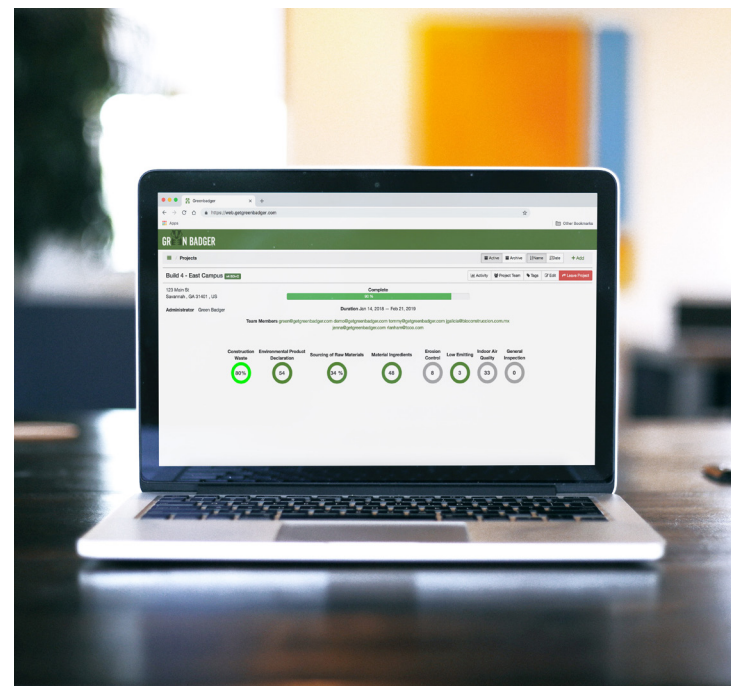

Green Badger Pricing Guide

Green Badger slashes the time and effort spent on LEED documentation.

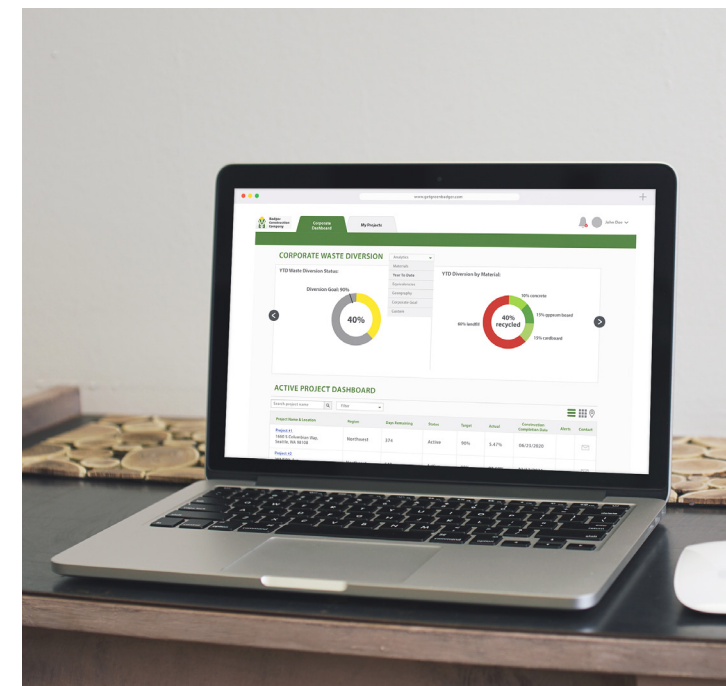

Instant Product Documentation

Scan barcodes while walking the jobsite to get instant product verification from our database.

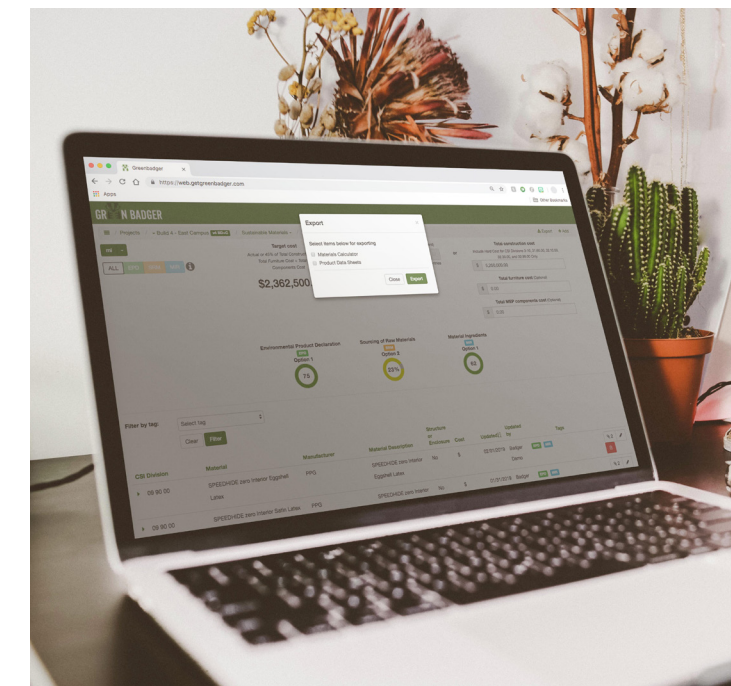

LEED Project Dashboard

View and manage all of your project details and progress in one, easy to use dashboard.

Waste Tracking

Track and manage waste for all of your projects while tracking and monitoring your diversion goals.

Export for LEED Online

At the end of your project, easily export and package all of your documentation for upload to LEED online.

ESC & IAQ Inspections

Complete site inspections for erosion control and indoor air quality as you walk the jobsite.

Green Badger Pricing Guide

1 project

=

400 hours

1 LEED project takes up to 400 man hours annually.

With Green Badger, time spent is cut by 65%
saving general contractors \$25,000 per project.

10x ROI

Spend your time getting your project built on time
and on budget – not on chasing LEED paperwork.

“Big fan here!
Reasonably priced.
Highly recommend it
from a both a LEED
and lean project
format.

I wouldn’t want to
do another LEED
project without Green
Badger.”

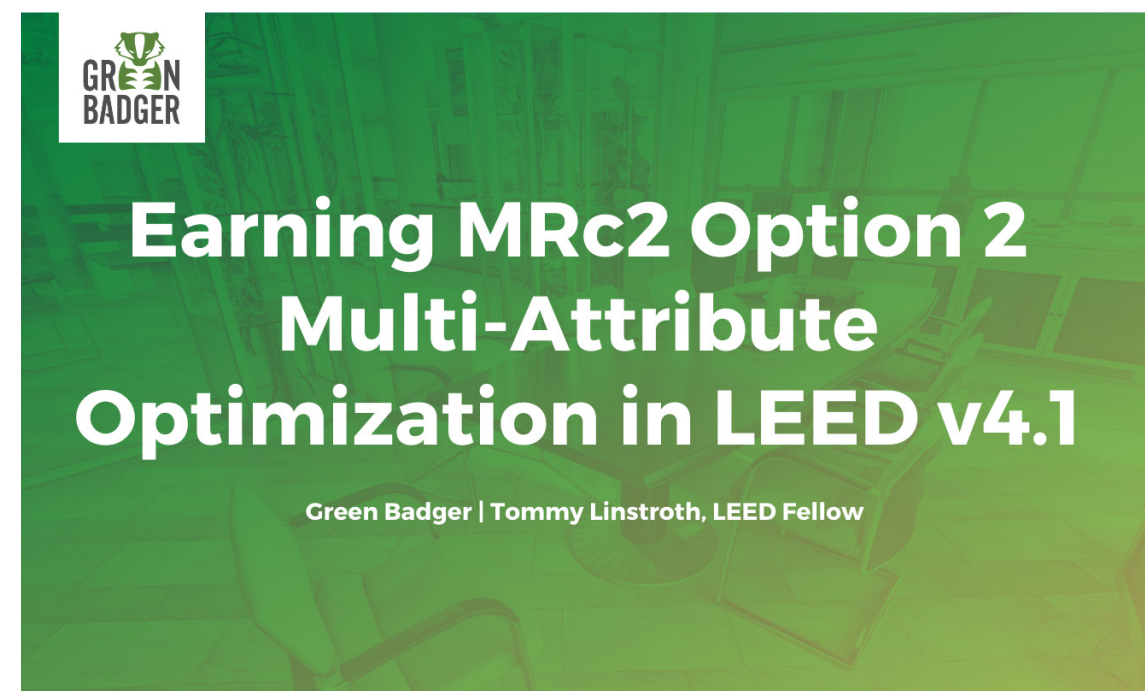

– Sr. Project Manager

Educational Resources

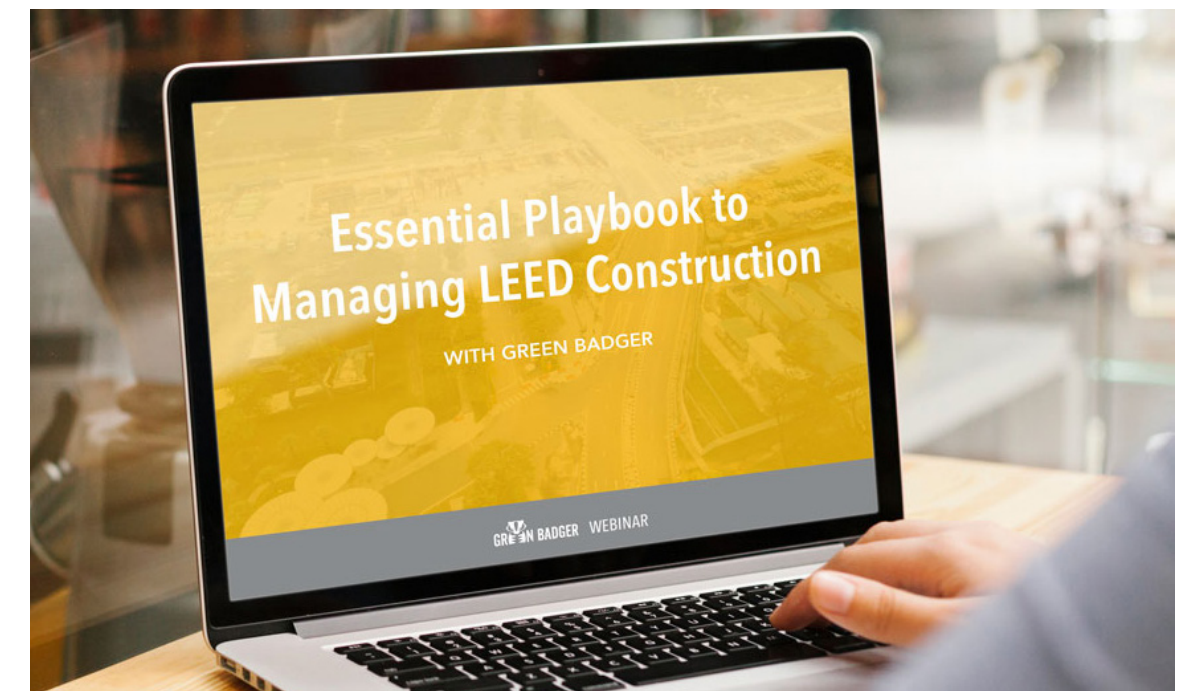

The LEED Product Guide

A framework of the product categories with the broadest number of manufacturers and product lines with EPDs, HPDs, Cradle to Cradle certifications, Declare labels to earn LEED materials credits for EPD Option 1 & MIR Option 1.

LEED Credit Guidance & Strategies

We send out monthly updates with strategies for achieving certain LEED construction credits based on our work with 500+ project teams across the country, breaking down requirements, strategies and advice for each one.

The Essential Playbook to Managing LEED Construction

The Essential Playbook is an on-demand webinar that offers advice about which of the LEED construction credits are Essential, Practical and Irrelevant to switch over to LEED v4.1 – and how to achieve each one.
