

Green Badger | PRICING GUIDE

LEED Documentation Portal

Automate your documentation with Green Badger to eliminate manual errors and mitigate certification risk before it impacts your bottom line. Recover hundreds of man-hours per project and ensure seamless compliance for less than the cost of a monthly jobsite luncheon.

We integrate with **PROCORE**!

Time is money, and Green Badger gives you more of it.

Spend time getting your projects built on time and on budget, not chasing LEED paperwork.

Green Badger has been an incredible asset to our ability to discuss options with the design team and help us deliver a successful LEED accredited project. The way the software helps you search, store and manage the required documents really streamlines the process from the Contractors side. Green Badger's service is great and they care about you and your specific project needs. I wouldn't tackle another LEED project without Green Badger.

-Jayson W. - Project Director

JACOBSEN
CONSTRUCTION

1 Project + Green Badger =

10x Return on Investment

400 Hours Saved

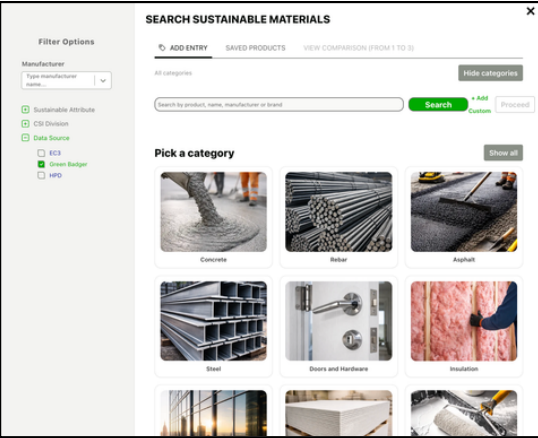

100% Less Stress

What will you do with 400 hours?

Green Badger slashes your effort spent on LEED documentation.

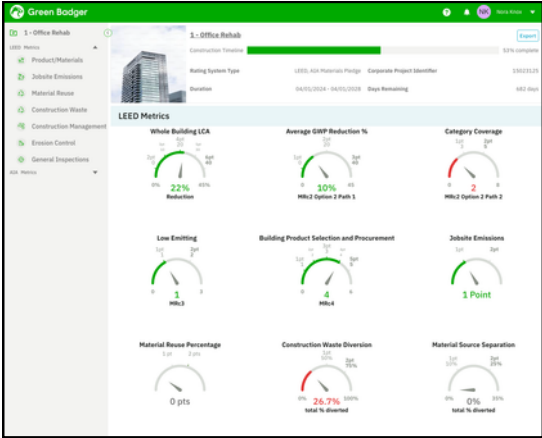

Instant Product Documentation

Eliminate paperwork chase with access to 125k+ products in the materials database.

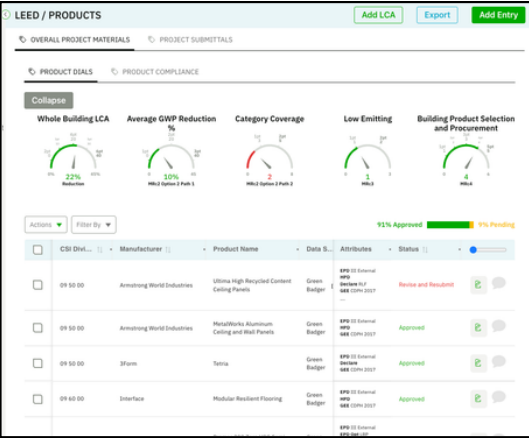

LEED Project Dashboard

View and manage all of your project details and progress in one, easy to use dashboard.

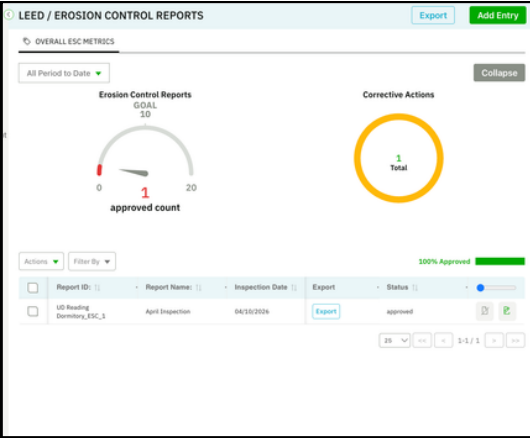

Export for LEED Online

At the end of your project, export and package documentation for LEED Online.

ESC & IAQ Inspections

Complete site inspections for erosion control and indoor air quality as you walk the jobsite.

On-site Mobile App Accessibility

Manage your project from anywhere and collaborate with your team in real-time.
